Welcome to Tour de Batam!

I am thrilled that you have chosen to join us for this world-class race. The move to Batam offers new opportunities to explore new roads, provide a fresh race experience and forge new relationships. You'll see new crowds of locals cheering you on, cycle over the famous Barelang Bridge and enjoy the Batam hospitality.

This is our fifth year as a UCI Gran Fondo World Series event, and many of you will be eyeing a qualifying spot for the 2024 World Championships in Aalborg, Denmark. It will be an unforgettable cycling experience and we wish you the best of luck.

Nongsa Resorts is our official host and proud hotel sponsor, and the location for Race Kit Collection and Saturday night's Tour Dinner. Be sure to book your tickets for what will be a wonderful night under the stars.

This year the event has a central hub at Nuvasa Bay where all races will start, and Friday and Sunday will finish. Everyone's favourite Sunday lunch will return where cyclists can relax and share stories before the overall prize ceremonies begin. A little light jazz will get you in the mood.

A huge thank you goes to Nongsa Resorts, the Batam government, Batam Fast Ferry and all other local partners. Without their invaluable support we would not be able to host this unique event.

All the best for a successful race, and an enjoyable stay in Batam.

**Nerida Rigg**  
Managing Director, MetaSport

New roads, new challenges, new adventures, a journey into the unknown. Months of preparation have gone into the race. As the starting line nears, the anticipation builds, producing a whirlwind of nerves and excitement. We know the feeling.

It is nearly time to put your skills and hard work to the test. And a test it will be. Regardless of the distance you have signed up for, Batam's tropical climate, the relentless small hills and the pressure of the competition present a formidable - and exciting! - challenge.

Read this e-brief well, so you will come prepared and can focus on riding your bike. We will be there to support you all the way, with police escorts, feed zones, a team of mechanics, and - touch wood you won't need them - ambulances and back up vehicles.

Now you are ready to enjoy Nongsa's green resort roads and revel at Batam's unique 'road to nowhere' across six bridges with scenic ocean views and a spectacular finish on the iconic Barelang Bridge.

I hope you will enjoy the journey as much as the achievement, and celebrate it with both old buddies and new friends made along the way.

On behalf of the many people involved in putting this event together, I wish you a great ride!

**Matthe Vijverberg**  
Tour Director

### IMPORTANT:

- **Start with full bottles** - You must start every stage with two full drink bottles on your bike.
- **Bring your own bottles** - Bottles and drinks will NOT be provided at the beginning of a stage. You need to bring your own filled bottles.
- **Fueling** - Water, Pocari Sweat isotonic drink and snacks (bananas, cake, watermelon) will be available at feed zones. However, don't rely solely on the drink stations for food and be sure to bring your own nutrition (gels, bars, etc) on the ride as well.

## Mechanic support

Read full information here about the [Mechanic Support](#) on the road.

**Note that private support is NOT allowed on the road.**

### Wheel Changes

We have wheels with tubes, cassette (and cassette body for 11/12 speed difference) and disc rotor available for wheel changes on the road.

#### NOTE:

1. Wheel changes and puncture repairs are to take place on the left hand side of the convoy/road only.
2. To have a wheel change, put your hand in the air to attract the attention of the mechanic support team. All borrowed wheels must be returned to the Mechanics booth immediately at the end of the day's ride before leaving the venue.
3. Do not fully rely on the neutral wheels and mechanics - bring spare tubes and a repair kit to fix punctures. We suggest you carry two spare tubes and a pump or inflator with CO2 cartridges on your bike during the race.

#### **IMPORTANT:**

**Race repairs** –services during the race are provided free of charge. However, there will be a charge for consumable items such as tubes, tyres, cables, chains, etc.

## Medical support

Every age group category wave has an ambulance with a doctor following the convoy. Please ensure that your medical conditions and allergies are known to us and that you have given us a current emergency contact. Please complete the back of your race number with this information as well.

If you have any medical concerns about your participation, please [contact us](#) or look for the Medical team on race weekend.

The priority for the Medical team is to look after you during the race. For any non-race-related illnesses or injuries, please contact your hotel clinic.

## Key rules and regulations

Cyclists are reminded to familiarize themselves with the race [rules and regulations](#). Below are a few important ones.

- Triathlon or time trial bikes, disc wheels, aerobars, aero helmets, sleeveless shirts, bottle cage holders behind the seat and wheels with less than 12 spokes are not allowed at any time. Check the equipment section of the [rules and regulations](#) for all rules. These equipment rules apply for the Individual Time Trial too.
- The weight of the bicycle cannot be less than 6.8 kilograms.
- You must wear your number bibs visible on the rear of your jersey, and attach the bike flag to your seat post.
- Bike cameras are permitted (..but please don't fiddle with them while riding)
- Protests must be lodged within 15 minutes after the finish of the stage via an official appeal form at the information booth. **A fee of RP 1,000,000 will apply.**

# EQUIPMENT RULES

## Bikes permitted:

Standard road bike

## Bikes NOT permitted:

Time trial bike

E-bike

## Items NOT permitted:

Aero helmets

Wheels with fewer than 12 spokes

Seat bottle cages

Tri bars

Sleeveless cycle tops

In order for everyone to have a safe and memorable ride, we would like you to take note of the following:

## **1. Roads are NOT CLOSED**

The police will attempt a rolling road closure and stop traffic as the peloton of each age group category passes. However, normal road rules still apply. Riders are to keep as close as safely practical to the left hand side of the road, whether in a peloton or not. The Police have the right to stop the race as they see fit due to any safety concerns that may arise.

## **2. Merging pelotons and sportsman-like behaviour**

In the instance that cyclists are caught by a peloton that started later, they are permitted to join this peloton and continue to participate in the race. Please show good sportsmanship and encouragement to fellow cyclists around you.

## **3. Point out hazards and ride safely**

The local government makes a tremendous effort to provide good road conditions for the tour. However there may still be some areas with hazards. Warn riders behind you of any immediate danger: potholes, humps, rough road, sharp corners, etc. Don't put yourself or other riders in danger by swerving or sudden braking.

## **4. Feed zone safety & cleanliness**

Please be aware at feed zones that some cyclists will be stopping to collect drinks. Cycle slowly through this area to avoid clashes with other bikes. Kindly dispose of rubbish and empty bidons at aid stations only (before the end of litter sign), and not on the course.

It's an unwritten rule that cyclists do not place accelerations/attacks before, at, or immediately after the feed zone.

## **5. Remember to keep drinking**

Don't forget to drink amidst all the excitement. Once you start to feel thirsty, the chance that you are dehydrated is high. That is likely to affect your ride and potentially result in a heat injury.

## **6. Bike-free Festival Area**

To create a nice post-race environment, please place your bike in the bike holding area on Saturday and Sunday after the race. More space to relax for everyone!

# POST-RACE LUNCHES & TOUR DINNER

Tour de Batam is one of the only 3 races in Asia and 28 in the world where participants can obtain their ticket for the official UCI Gran Fondo World Championships in their age group.

The UCI Gran Fondo World Championships will crown the new UCI World Champions in Road Racing and Time-trial in Aalborg, Denmark.

## Tour de Batam UCI Gran Fondo World Championship qualifier races:

Friday, 22 September – 15km Individual Time Trial

Saturday, 23 September – 149km/129km Gran Fondo Classic

## How to qualify for the UCI Gran Fondo World Championship:

The top 25% of place getters in each age category of the 15km Individual Time Trial and Gran Fondo Classic qualify for the World Championships.

The top 3 winners of an official age category always qualify (up to 65+). Additional age groups (70+, 75+) are only split from the 65+ category if more than 6 riders over 70, 75 etc register to create an additional age group that will then have separate results and qualification spots.
